

## Malaria Projects and Programs

### VACCINES

#### MALARIA VACCINE INITIATIVE (MVI)\*

Accelerating malaria vaccine development

#### RTS,S PROJECT\*

Supporting evidence-based decision-making

### DRUGS

#### DRUG DEVELOPMENT

Strengthening the artemisinin supply and analyzing the state of the chloroquine market

### DIAGNOSTICS

#### DIAGNOSTICS FOR MALARIA ELIMINATION (DIAMETER)

Developing diagnostics for malaria elimination

#### G6PD PROJECT

Developing point of care G6PD diagnostics

### SYSTEM AND SERVICE INNOVATIONS

#### MALARIACARE

Strengthening diagnosis and treatment

#### DIGITAL HEALTH SOLUTIONS

Information technology to strengthen health systems

#### MARKET DYNAMICS

Developing strategies to strengthen markets and increase health impact

#### PROGRAM FOR THE ADVANCEMENT OF MALARIA OUTCOMES (PAMO)

Increasing delivery and uptake of integrated measures in Zambia

#### MALARIA CONTROL & ELIMINATION PARTNERSHIP IN AFRICA (MACEPA)

Building strategies to stop malaria transmission

#### NEXT GENERATION IRS (NgenIRS)

Charting the future of indoor residual spraying for prevention and elimination
